Keith Michael and Meredith Anderson and their son Judah have returned to Brazil for missionary work. Pray for them and their efforts.

Harold Brock, friend of Donald Moore, has 2 spots on his lung that are malignant and is scheduled for surgery to remove them.

John Cecil, a friend of James and Gail Cantrell, has Parkinson's and Lewy body dementia. Please remember him and his wife, Judy, in your prayers.

Brandon and Kristan Cook and family, missionaries in Italy. Friends of Carl and Mary George.

Paula Cox, Marla Metzger's sister, had a tumor removed from her pancreas but the cancer has now spread to her liver. Please pray for her.

Mila Hood (Dawn Heisler's 6-month-old granddaughter) who was born with a heart murmur had a follow up appointment recently which showed some improvement in the heart murmur but not enough to avoid surgery. They will meet with surgeon in April to discuss the procedure and have her re-evaluated. There is still a small chance that it could close up before April so continue to pray it closes.

Virgil Hughey (Randy and Glenda Reese's infant neighbor) has had incredible improvement with his tumor shrinking and improved mobility. Continue to remember him in your prayers.

Ellen Kanada, Olivia Shoults' mom, has pre-leukemia (MDS) and will have a CT scan and bone marrow biopsy to see how advanced it is.

Ana Lewis (8-year-old great niece of Ken and Linda Clark) has been having seizures. Pray for her and for the doctors to figure out what is causing the seizures and the best treatment for them.

Tina Morgan, niece of Sandra Walker and Felton Berry, is having issues with her lungs. Pray for her.

Michael Ong, Amy's husband, still needs prayer for salvation and allow God to heal his heart and make Jesus a priority in his life for his family.

Kaydence Oslan, Dawn Heisler's 15-year-old granddaughter, had brain surgery on September 14 and it went well. They got all of the tumor. She has a long road ahead of her and will remain on anti-seizure medication of 6 more months. They are awaiting results to make sure the tumor wasn't malignant. Pray for her recovery, the test results and her healing. She will go back to the doctor on October 15 and the family is hoping to get the biopsy results then. Pray for clear results on that.

Juanita Parrish, Elizabeth Sutton's sister, has been diagnosed with chronic myelomonocytic leukemia. The treatments have been paused due to low blood count. Pray that her blood count increases and that she can continue the treatment.
