THIS WEEK'S SERMON:

"The Altogether Christian:
"Offering Altogether Love to Others"
Romans 13:8-10
Pastor Matt Wallis

ANTHEM:

"*Lord, Be Here Among Us"* (Joseph Martin)

Lord, be here among us, in every song we sing, in each gift we bring. O Lord, be here among us, in every breath we take, in each fragile prayer we raise, in our hymns of praise. Come, join us in this sacred space. Teach us the way of grace. Lord, inhabit each alleluia.
Alleluia. Alleluia. Alleluia. Alleluia.

Lord, be here among us. Lord, be in our worship, Holy, holy, holy, three in one. You, o God, are holy. You are God and God alone. Lord, be here among us. Lord, be here among us. We are your temple! We are your sanctuary! We are your dwelling place! We are your temple! We are your church, O God.

Be in our worship. Be in our service. Be in our living! Emmanuel. Lord, be here among us, in every song we sing, in each gift we bring. O Lord, be here among us, in every breath we take, in each fragile prayer we raise, in our hymns of praise. Come, join us in this sacred space. Teach us the way of grace. Alleluia.

world diabetes day

14 November

Most of us know someone who is diagnosed with Diabetes. The good news is that we can prevent or delay Diabetes type 2. World Diabetes Day (WDD) is the Worlds largest Diabetes campaign with a Global Audience of over 1 billion people in 160 countries.

World Diabetes Day 2026 theme is "Early Action on Diabetes" and helps people to focus on the importance of knowing your risk of type 2 diabetes. To help delay or prevent the condition, highlighting the impact of diabetes-related complications. The importance of having access to the right information and care to ensure timely treatment and management. 1 in 10 adults worldwide have diabetes. Over 90% of those have type 2 diabetes. Close to half are not diagnosed yet. In many cases, type 2 diabetes and its complications can be delayed or prevented by adopting and maintaining healthy habits. When not detected and treated early, diabetes can lead to serious and potentially life-threatening complications.

Here are some statistics:

- 589 million adults (1-in-11) are living with Diabetes in the world today.
- 1 in 2 adults with Diabetes remain undiagnosed (252 million). Type 1 Diabetes are frequently missed or misdiagnosed. Over half of the adults diagnosed with diabetes are not receiving treatment.
- Early diagnosis and action can reduce the risk or delay the progression of type 2 diabetes. Effective risk reduction requires addressing access to nutritious food, safe public spaces for physical activity, and quality primary care.

On the ADA (American Diabetes Association) website, https://www.diabetes.org/diabetes-risk , look for the link, take the risk test. Not only does the test show your risk of Diabetes. There are resources to help guide you on how to prevent it also. There is a program by the CDC listed on this website to motivate you to make small changes to the way you eat without giving up foods you love, increase your physical activity and help manage stress.

Dear friend, I pray that you may enjoy good health and that all may go well with you, even as your soul is getting along well." 3 John 1:2 (NIV)
