The name of the LORD is

## THE CHURCH AS A TEAM

The story is told of a horse pull where one horse pulled 9,000 pounds, and another pulled 8,000 pounds. Together you would expect them to pull 17,000 pounds. Not so!

When teamed together they pulled 30,000 pounds. The principle is called “synergism.” By definition, the simultaneous actions of separate agents working together have a greater total effect than the sum of their individual efforts. More can be done in a team effort than can be accomplished solo.

In order for the principle of synergism to work like it should there has to be team work. Everything we do takes teamwork and trust. Every person in the local church is valuable and needed. The church is a team and together we can build for the Lord. “Now ye are the body of Christ, and members in particular” (1 Corinthians 12:27).

~Romans 3:23

## An Example of Living Faith!

Ron taught a class of mentally impaired teenagers. Looking at his students' capabilities rather than their limitations, Ron got them to play chess, restore furniture and repair electrical appliances. Most important, he taught them to believe in themselves.

Young Bobby soon proved how well he had learned that last lesson. One day he brought in a broken toaster to repair. He carried the toaster tucked under one arm, and a half-loaf of bread under the other.

## An Example of Dead Faith

To illustrate dead faith, "It is that kind of faith which would lead a man to take a bottle of medicine from his medicine cabinet. Looking at the instructions on it, he says, 'I'm sure they're correct. I have all confidence in the source of the medicine. I know who wrote these directions. I believe everything about it. I know this will relieve my headache, if I just take it.'

But he takes the medicine bottle and puts it back on the shelf. He doesn't lose his headache. It continues on. Yet he can say I believe that medicine. I believe all about that medicine. But still he won't take it. That's dead faith." —Harlan Roper
