

Summary of Alberta Health Restrictions for Visiting Seniors

Individuals over 60 years of age and those with pre-existing health conditions are most at risk of severe symptoms from COVID-19.

Continuing care, long-term care and seniors lodges

To prevent the spread of respiratory viruses, including COVID-19, among seniors and vulnerable groups:

- Visitors to any continuing care, long-term care and seniors lodges in Alberta are limited to a single individual designated by the resident or guardian.
- Each essential visitor must be verified and undergo a health screening prior to entering the facility. This may include a temperature check or a questionnaire.
- Facilities must have security staff or a greeter to conduct this screening and verify the visitor is designated.
- Exceptions to these essential visitor rules will be made for family members to visit a person who is dying, so long as only one visitor enters the facility at a time.
