Questions for discussion

1. At what point (if any) did you consider the reality of God? What convinced you then?
2. Which of the pieces of evidence for God from the message do you find the most convincing? Why?
3. What doubts do you still struggle with?

Application

Could you see yourself using this evidence to faith train someone into a relationship with God? Why or why not? (just be honest...this is not a right or wrong question)
