## All His Strength

A little boy declared that he loved his mother "with all his strength." He was asked to explain what he meant by "with all his strength." He said: "Well, I'll tell you. You see, we live on the fourth floor of this tenement; and there's no elevator, and the coal is kept down in the basement. Mother is busy all the time, and she isn't very strong; so I see to it that the coal hold is never empty. I lug the coal up four flights of stairs all by myself. And it's a pretty big hold. It takes all my strength to get it up here. Now, isn't that loving my mother with all my strength?"
