

## Charter

We are called to be a family to those who are suffering from war and disaster in our global society.

We practice unconditional love, disregarding differences in political values, religions and nationalities.

We volunteer ourselves for this mission that may bring us danger, and expect no compensation for the damage caused from the field operations.

Community is the core of our foundation and we commit our lives to one another.

## Specialized WASH Sector NGO

## Team&Team International Dayzee Sanitary Pad Project

# Dayzees

Team&Team International is an international relief and development NGO practicing unconditional love through emergency relief and community development based on water supply, sanitation and hygiene projects in areas of conflict and disaster.

# DAYZEE SANITARY PAD PROJECT

Africa, NK and South America school-aged girls are losing educational opportunities due to issues related to their menstrual cycles. Most girls cannot afford to buy sanitary pads. With the implementation of the reusable sanitary pad project, girls in Kenya and Uganda will be able to live healthy lives and pursue education.

Join our Dayzee Sanitary Pad Project. Through your participation, we provide reusable sanitary pads and hygiene education to African girls to love themselves and to continue their education.

## Support for reusable sanitary pads

Team & Team staff and volunteers work together to produce cotton sanitary pads to support Africa, NK and South America girls. The sanitary pads are delivered to girls in rural villages in Kenya and Uganda, helping them live healthy lives and continue their education.

**Reusable pad donation : 1 package = \$20**

## Sanitation and Hygiene Education

With hygienic pad support, we help girls in Africa understand how to have a healthy menstrual cycle. We also provide them with the education they need to stay healthy as they mature.
