Customize Homepage - The homepage is a good place to put information that first time visitors will need. Don't send them on a scavenger hunt to find your service times, make sure the following items are easy to find:

Service times

Service location

Inviting language ("you're welcome here," etc...)

Customize About Section - This section is great for adding your vision, staff, history, beliefs, etc.

Add Staff (or other users helping with the setup of the website)
