

Treasures of God's Creation

*Majestic mountains reflecting sun light
Dashing against cliffs the mighty sea
A pristine lake surrounded by forest
Delicate flowers with their fragranc*

*A trout leaping high for joy
A mighty hump-back flips its fins
A doe and fawn feed at water's edge
And larks trill like fine violins*

*A baby cooing so sweetly
Children at play, their smiles beaming
A young woman full of grace
An old man with a pipe, remembering*

*Looking down from heaven
God saw that it was good
Perhaps planning His new earth
And these treasures to include*
