

## 2020 Report – Youth Technical Team For Worship

The 2020 Technical Team was formed starting in September of 2020 to engage Junior High and High School students to help with the technical aspects (Power Point, sound board, Go Pro camera) for each church service at ALC. This included the telecasts on Facebook each Sunday and on Christmas Eve. This amounted to over 50 volunteer hours (involving 7 teens) that ALC's youth contributed to our church. It was also my observation that beside the technical knowledge that the group provided, they were also more focused on the spiritual aspects of the services itself. On behalf of ALC, I want to thank the following teens for their participation during this difficult (and masked ) time:

Vivian Garcia

Tres Garcia

Sarah Deckinger

Michael Beyer

Nathan Beyer

Hunter Benavidez

Ember Benavidez

I would also like to thank Russ Senti and the entire Deckinger family for their help with the team. We look forward to all of your participation in 2021, with hopefully even more students volunteering.

Stephen Beyer

Technical Team Coordinator
