“SPIRITUAL UNITY in the 21st CENTURY”

World Religion Day is an annual celebration of the commonalities among varied faith communities. It was founded by American Baha'is in 1950.

If we are all children of One God, then our world is one family, and the Light of Truth is a spectrum of beautiful colors which all can behold.

Yet humanity faces important issues and tests:

Can our world's greatest challenges become our greatest opportunities?

How might faith and service contribute to harmony and peace?

What breakthroughs may bring cooperative planetary advance?

*How shall our religious and spiritual traditions embrace diversity
and build a more unified world?*

Moderator: Dr Su Bright – Baha'i Community

Musicians: Cathy Hardy – Soul Care Music...
