

## CREATIVE CAMP SAFETY PROTOCOL

**Screening:** Parents/Guardians and Students over 18 are responsible for screening participants prior to arrival to camps. COVID-19 symptoms can be found [here](#). Students and Parents/Guardians can be expected to answer additional screening questions daily upon arrival. Please observe signage and maintain physical distancing during drop-off and pick-up times. Please arrive by 12:30 PM daily to ensure adequate time for registration and screening for all participants. Similarly, please exercise patience at pick-up. Please DO NOT attend if the participant or anyone within their household is ill. Refunds will be available in these circumstances.

**Tracking:** Detailed daily attendance records of staffing and participants will be kept.

**Cohorting:** Students will interact within cohorts of ten or less participants (including leaders). For creative camps, this will be realized by the stream they enrol in (vocal music, instrumental music, tech & production, or creative stream). Cohort entry and pickup will be staggered.

**Masks:** All staff and participants must wear non-medical masks at all times throughout the program, and physical distancing will be maintained within and beyond cohorts. BBC staff will assist and remind, but it is each student's personal responsibility to physically distance!

**Touch Surfaces:** Frequently touched surfaces should be avoided, but they will be cleaned thoroughly and regularly. Participants must not share instruments, microphones, etc.. Personal items (e.g. water bottles, backpacks, etc.) should be labelled and kept with the participants.

**Food:** There will be no meal break. Participants may bring their own snacks, but are not to share food, and must package and consume food, and dispose of trash responsibly. Physical distancing will be maintained while eating.

**Hand hygiene:** Frequent opportunities for hand-washing will be implemented and hand sanitizer will be available in several locations.

The BBC Youth Creative Camp will abide by [Ontario Summer Day Camps COVID-19 Guidance](#), with one exception:

"5. Avoid singing activities indoors and ensure physical distancing for singing activities outdoors" (p. 5).

There **will be indoor singing activities**, but participants will be masked, physically distanced, and will not share microphones over the course of the week.
