

When we trust Jesus as Saviour, we are made new by God. But like a caterpillar, we have to wait for that change to be completed in our bodies. Cut out and color the agamograph. (Cover every other section with a piece of paper to help you see and color each of the two images separately.) Accordion fold the agamograph along the straight lines and place it on a flat surface. Then look at your picture from the left side. It is a caterpillar! Look from the right side. It is a butterfly!
