**Middle & High School Programs**

## Our Philosophy & Approach

Students enrolled in ArtsCalibre Academy's Middle and High School programs are encouraged to approach learning with unbridled curiosity. We invite them to think unconventionally and "question the norm," while seeking new perspectives in building their creative capacities.

Our Fine Arts program is infused into the daily curriculum, stimulating students' intellect, and piquing their curiosity, creativity and imagination. Through the creation of kinesthetic and interactive experiences, students are taking risks, exploring social skills, developing critical thinking and problem-solving skills. Through positive and supportive experiences, students are honing their leadership skills, thus preparing them for the bigger world.

We have the small class sizes to meet the individual needs of every student and to deliver outstanding instruction across all subjects. Enrichment is built into our curriculum which ensures capable students are challenged to accelerate their learning in both linear and semester-based timetables.

## The ArtsCalibre Difference

ArtsCalibre Academy has a novel educational program that infuses performing arts, visual arts and the creative process into every aspect of the school curriculum.

Our dynamic and diverse program

*"ArtsCalibre Academy supports students finding their passion and purpose while fostering Artistic Excellence."*

is designed to challenge students academically, while encouraging exploration and development of their creative and other innate talents.

ArtsCalibre students are:

- Engaged in the learning process
- Excited and creative learners
- Creative artists, performers and thinkers
- Confident leaders who model initiative and are willing to take learning risks

## NEWSical The Musical

*"The Arts aren't just important because they improve math scores. They're important because they speak to parts of children's being which are otherwise untouched."*

*Sir Ken Robinson*
