

**Applying for a Parish Development Grant  
Diocese of New Westminster  
2022 Grants**

**The Purpose of Parish Development Grants:**

The overall purpose of Parish Development Grants is to assist parishes in the Diocese as they develop, with God's help, into healthier, more faithful, and more effective communities of faith. **We are interested, therefore, in making grants to parishes that have a vision for their own development and want the Diocese's assistance in moving toward the vision.** \$15,000 is the maximum amount which will be granted to a project in a single year.

In preparing an application, parish leaders may find the following definition of parish development helpful:

Parish Development is the development of parishes of all sizes, locations, and conditions into more faithful, healthy, and effective communities of faith that are:

- Focused on and faithful to their unique reason for being/primary task as parishes; which are local expressions of the Body of Christ that gather people into Christian community, transform people in their baptismal identity & purpose, and send them out to be God's presence in the world.
- Connected to and expressive of their unique ecclesial tradition, ethos, and character
- Self-renewing and responsive to the challenges and opportunities before them
- Sustainable or working towards greater sustainability in terms of congruence (or "fit") between the elements of their organizational life: vision for ministry, leadership, culture, size, property, finances, etc.
- Nurture a *parish culture* that is transparent, honest, open to learning and hopeful<sup>1</sup>.

Some examples of the kinds of grants we would like to support are:

- Grants that seek to increase attendance, and stewardship within a parish via the development of an additional liturgy that will attract new people and/or a different population to the parish
- Grants that seek to build the capacity of a parish to attract and form children in Christian faith via the initiation of Godly Play or some other program of children's formation.
- Development of pilot programs of any size that would be of benefit to the broader Church and are sustainable by the parish over time.

**Examples of Parish Development Projects**

In 2019, the Parish Development Grants team awarded 8 grants to projects around the diocese. Among these projects included:

- *St. Dunstan, Aldergrove* to form a center for Spiritual Practice for people in the Valley, building on ministry the parish has been doing among people from a Christian fundamentalist background who are seeking new and healthy ways of connecting to God through Anglican spirituality
- *Holy Trinity, White Rock* to commission a feasibility study on the redevelopment of their property with partners to serve current and future mission.

<sup>1</sup> Definition taken from the manual of the Diocesan School for Parish Development, Diocese of New Westminster.

- *St. George, Maple Ridge* hire a Worship and Youth Pastor continuing to build the parish's growth among young families – the parish ran a successful vacation Bible School/summer day camp in 2018 which was funded by a previous Parish Development Grant.
- *St. Mary, Sapperton* for a second year to respond to a rapid period of growth in attendance by developing appropriate children and family ministries in the parish.

#### Parameters:

- The Diocese does not fund capital projects through this Parish Development Grants process, funds for such projects may be accessed through other granting facilities.
- For new church plants Parish Development Grants will be limited to projects such as website design, gathering events, workshops and training, etc.
- Grant applications should demonstrate ways in which the project or the effort will, over time, become self-sustaining.
- Most grants will be single year, with multi-year grants being considered on a case-by-case basis and will require a yearly application for renewal on the same timeline as new grant requests.
  - The maximum term for any multi-year grant is three consecutive years.
  - To demonstrate a path to sustainability, multi-year grant applications must show a substantial decline in the amount of funding requested each year.
- Grant recipients are encouraged to send a team to Groundwork or our two-year Diocesan School for Parish Development prior to or during the year they receive the grant (Diocesan bursaries are available to assist parishes to send a team to the School).
