

In the month of October, the Diocesan Social Justice Committee will be offering a series of resources to help parishes engage with the topic of food security. There will be worship resources appropriate for use on Thanksgiving Sunday or at any other time, as well as links to learning and study resources. These will be downloadable on the Diocesan website. We hope you will find them useful as you explore this important topic.

Did you know?

- 1 in 9 people in this world don't have enough food to eat?
- 700 million people go to bed hungry each night?
- 70 % of the world's hungry are farmers, and the majority of these are women?
- world hunger is increasing due to conflict and changing climate?
- COVID 19 has created serious challenges for people at home and abroad, with disruptions to food supply chains and economic slowdown increasing food insecurity?

We can all play our part to end global hunger. As Christians our faith and hope can move us into action. We can align our hearts with God and his love for the poor and hungry. We can pray, and work with God through learning, giving, and advocating, as we discern how to use the resources we have at our disposal.
