### India Missions - Mani Pagidipalli

We are losing people and there is just nothing we could do about it. Now we are also dealing with post-COVID complications of lung failure, black fungus etc. Our state has 3rd highest # of cases of black fungus in India. There are no drugs available to treat. People are losing vision and in many many cases black fungus is causing deaths. Our life here over these past month or so has been like a war zone. I am especially worried about my two brothers Nani and Munna and other team members who are witnessing deaths on a daily basis. None of them are used to witnessing deaths let alone deaths on a daily basis. As a physician I am "conditioned" to take in this kind of pain, suffering, deaths etc. through my medical training but only to an extent. What we are witnessing here is just another level that no medical doctor has ever witnessed. Thank you for the continued prayers for all of us here.

**Love from India,  
Mani**
