SEEKING JESUS TOGETHER

A QUIET TIME TOOL FOR WBC

Just like with friends and family, our relationship with God grows as we spend time together. We understand more about who He is as we read the Bible. God reveals His character through statements about who He is, but also by His activity in the lives of people. As we learn more about who He is and how He acts, it will strengthen our faith and give us hope in our own circumstances.

We also discover more about who we are when we spend time reading the Bible. The Bible acts like a mirror according to James 1:23. As we apply what it says to our lives, it empowers us to continue growing in our faith.

Seeking Jesus is part of our mission statement as a church. We are also committed to being in community – doing things together. That is why we are calling this Quiet Time tool, 'Seeking Jesus Together'. With that in mind, I encourage everyone to use this tool and incorporate it into your LIFE group times as well as your general catch ups.

We have kept this tool very simple. There is a passage of Scripture to read each day and 2 questions to answer. They are the same questions every day – 1) What is the writer saying? and 2) How can I apply this to my life?

A final step asks the question 'What am I praying for today?' You can use that to turn your application into a prayer and list the things and people you are praying for. Keeping track of what you are asking God for will help you be able to thank Him when He answers!

Enjoy this tool and let us know if you are using it!

Hello, I'm Lachlan and I have put together this month's edition of our Quiet Time tool – Seeking Jesus Together and I am just letting you know that this month's tool is going to be different.

Here are a few things that you'll notice, firstly, it ends on the 27th of November because we will have an advent or pre-Christmas themed tool from the 28th. Secondly, if you're used to speeding through the daily readings, that's not the point. For much of this month you're going to be encouraged to really focus in to some of the key verses of the Book of Romans as we finish reading through the book and dwell on some of the key take-aways of Paul's letter to the Church in Rome. Don't worry though, the difference is not particularly radical and it's not the new norm.

I pray that this is a blessing to you and that your quiet time with God this month helps you to grow closer to and more in awe of Him. God be with you.

Lachlan West
