Since 1999, No Room in the Inn has led a highly successful cross denominational Christmas campaign to raise money for housing and housing improvements for those in need. No Room in the Inn is inspired by the story of Mary and Joseph, who arrived in Bethlehem to discover there was no room at the inn for them. They found a place in a stable, where they welcomed their son, Jesus.

For 2021 No Room in the Inn campaign, your congregation is invited to support L'Arche Edmonton.

This year we are striving to improve the housing for people with special needs in our community. One of the homes in particular is over 50 years old and needs repairs and updates.

Your donations will help make this happen.

L'Arche Edmonton has seven homes - five in Edmonton and two in Sherwood Park. For 49 years L'Arche Edmonton has been a community of people with and without disabilities committed to building mutual relationships, celebrating the unique gifts of each person and developing relationships beyond our community. We have a common desire to build community together.

L'Arche International Today there are more than 154 communities and 19 projects in 38 countries around the world from Belgium to Argentina, Uganda to Japan and to the United States.

While communities around the world share in the philosophy of L'Arche, each community celebrates and lives its own cultural and spiritual expression of community. At L'Arche, we value and celebrate the diversity within our communities.
