We are a group of people who meet together to experience the presence of God in nature.

Participants should come with an attitude of experimentation, playfulness and the readiness to connect with God through God’s creation.

This will be a mixed water and land experience. Some of us will kayak or canoe, while others will walk alongside the river. Please prepare accordingly. As there have been recent bear sightings you may wish to bring bear spray or a bear bell.

Everyone is welcome. Transportation to the site can be arranged. Please call the church office or leave a message on our Facebook page: [StSavioursvermilion@Facebook.com](https://www.facebook.com/StSavioursvermilion)
