The Rokebys to Japan

Dear Family and Friends,

Many of you have asked us about our future housing arrangements in Japan. Housing in Japan is different in many ways compared to Canada or the United States. For example, when moving into a rental home, there are one-time fees totaling up to 4 months' rent! These fees include a sizeable "gift" to the landlord.

As you think about Christmas presents, please consider helping us give a "gift" to our future landlord. This year, we have established a Christmas giving project to cover the one-time costs of rental fees and furnishing a home in Japan. We have set a goal of \$10,000 for this project. Please prayerfully consider partnering with us in this way.

Merry Christmas,

Andrew, Tanja, John, Anna and the new baby

Japanese apartments are compact but practical
