## Description

This Classroom series is on Creation Care, a critically important aspect for the global church and mission. Stewardship of God's creation (creation care) is a clear biblical command and an integral part of what it means to follow Jesus as Lord. "If Jesus is Lord of all the earth, we cannot separate ...

## NOTES

The cross is a grass pathway inviting people into the garden to rest, pray, and enjoy God's creation. Benches can be placed at the end of each arm of the cross to encourage lingering. Another path winds between the major plantings to enable access for picking fruit. The fruit trees and shrubs will be underplanted with herbaceous perennials, smaller fruiting bushes and plants, and groundcovers. A caragana hedge has been added to the north and west as a windbreak.
