A Bit of History about the early St. Paul's Before Benjamin Cronyn arrived at the Forks of the Thames, Edward Jukes Boswell was a Missionary assigned by the Diocese of Quebec to the London area beginning in 1829. He was based in London and would have established a circuit to hold services in small settlements in this large London district. So how old is the Christian community here… did it begin with the arrival of Benjamin Cronyn in 1832 or is the beginning in 1829 when Boswell was preaching here and travelling to various settlements in the vast territory? Please pick up the brochure "An Historical record" to learn more.
