Re: St. Michael's Centre

Dear Bishop John,

I am writing to you today to make a request. As you undoubtedly know, many sectors in our society are suffering from staffing shortages. This is particularly true in healthcare/seniors' care. At St. Michael's this has reached a crisis where we need RNs, LPNs and RCAs so we can continue to provide excellent care.

We are all reaching out to our stakeholders and networks and asking if they know any competent healthcare professionals, who are licensed in BC, looking for part-time or fulltime employment – even perhaps a recent retiree who would consider returning to the workforce temporarily.

I will also be writing to the Catholic Archdiocese of Vancouver and the United Church of Canada with the same request.

If you or your colleagues can think of anyone, please have them contact our Executive Assistant, Daisy Jeys, (EA@stmichaels.bc.ca) for further information.

I hope you are keeping well as we slowly return to “normal”.
And, please keep St. Michael's in your prayers.

Sincerely,

A handwritten signature in dark ink that reads 'Barbara Spitz'.

Barbara Spitz, Chair
St. Michael's Centre
