

Unity Northwest Region

Regional Representative Annual Report for 2024

Submitted by: Rev. Carrie Kenyon

This year has been one of meaningful connections and continued support within our region. Working with the board, I have reached out to ministries, expanding our outreach to include unassigned ministers, fostering a greater sense of community and shared purpose.

I had the privilege of spending a wonderful weekend in Eugene, facilitating a board training with both the board and ministerial team. The experience was enriching for all involved, and I look forward to more opportunities to serve in this capacity.

Throughout the year, I served as a guest speaker upon request, bringing spiritual insights and Unity teachings to various congregations. Additionally, I continued to act as a resource for ministries and ministers within our region, offering guidance on key topics such as:

- **CEUs:** Understanding guidelines and available resources for continuing education.
- **Handling Sensitive Situations:** Addressing concerns when a registered sex offender begins attending ministry services.
- **Disruptive Behavior Policies:** Highlighting the importance of having clear policies in place before they are needed.

Furthermore, I contributed to the work on the **Standards Team**, where we undertook the revision of several important documents, including:

- The **Code of Ethics**
- **Guidelines for the Minister of Record**
- The **Social Media Policy**
- Clarifications around the use of the title "Reverend."

As I reflect on the past year, I am grateful for the connections made and the work accomplished. I look forward to deepening these connections and continuing to serve our ministries in the year ahead.

Respectfully submitted,

Rev. Carrie Kenyon
