

Members and friends are encouraged to sign in to in-person worship services, events, and meetings held in any FUUN building. This will allow FUUN to contact attendees if a COVID case is reported.

Members and friends shall notify the church of any incidents of COVID infection that occur within 2 days of attendance at in-person FUUN events.

Using the Breeze check-in list, the leadership of FUUN will inform any who may have been exposed to COVID-19 while in attendance at an in-person FUUN event. **Only those who report having been in attendance shall be contacted. The name(s) of any person(s) reporting a potential COVID exposure shall be shared so those in attendance can assess their risk of illness.**

We encourage all our members and friends who are eligible and medically able to be fully vaccinated and boosted.
