Thank you, dear supporters, for your gift in September 2024 to the ministries of Fundamental Missions, Inc.

The enclosed letters will surely be a spiritual encouragement to all who read them. These men love the Lord and so faithfully serve Him.

Also, I want to thank you for your prayers for me. In September I had the third CT scan of my abdomen for the year 2024! If you remember, the first one revealed a possible mass in my colon. The second one found no mass. After total healing from the two bouts of diverticulitis, I had the third scan last month. It again confirmed that there was no mass present! So I am no longer concerned about further treatment options, at least for that part of my elderly body! I praise the Lord for His mercy upon me.

As I consider the devastating situation of those who were affected by hurricane "Helene," and as I saw the news reports of missiles raining upon Israel, I realize how insignificant are my small afflictions in light of the suffering of others. We must pray for our world to repent and turn to the only Saviour, the Lord Jesus Christ.

In Gratitude for His Mercy,

Janet K. Matson
