BIMI
MRS. DOT HALSEY MISSIONARY Emeritus

October 2024

Dear Church and Friends,

Forgive me for being a little late with this prayer letter. I had a medical problem on August 18 that sent me to the hospital with a stroke in the retina of my right eye. I never heard of that happening, but now I know first-hand. I have lost about two-thirds of my vision in that eye, but my left eye is fine. I have some vision to my right side which helps, but as I write this letter, I find I really need both for focus. Two specialists have said I might get some sight back to near normal within a year but don't guarantee it. I am trusting God to do what He wills.

I am still dealing with Afib, but it is under control with lots of expensive drugs. God is providing. I keep looking up and waiting for the Lord to take me home. This growing old isn't much fun. Pray for me. I have not shed one tear over my condition. I have left it in His hands.

This letter has been short for a reason. I had to go back numerous times to correct my mistakes. Bear with me. Maybe next time I will see the keyboard and screen better.

Trusting in my Lord,

Dot Halsey

Dot Halsey
(Mrs. John Halsey)
