Did You Know?

Grace Church has opportunities for one-on-one mentoring. The idea behind the program is for each person, who wants to obey the Lord by growing in their faith, to relationally learn from a more established believer. The purpose of mentoring is for one person to pass along the biblical knowledge, attitudes, character qualities, skills, and behavior to another. Together they travel down the same path; one assisting the other as they strive to learn and accomplish God's will for their life.
