Dear Brethren,

A close friend of Nancy's is asking prayer for her 15-year-old granddaughter, Charlee, who is suffering from an eating disorder called bulimia. She is athletic and on the high school track team and has gotten caught up in a diet "purging" paranoia to the point where her body finds it difficult to accept food. They are having some success in getting her back on a food routine, but she is asking us to pray for her that this will be remedied and not grow even worse. With her being in a public school environment (she professes to be a Christian) with peer pressure, plus the tendency to be affected by social media, and who knows what other social pressures, these things happen, especially living in a society in this day and time where evil runs rampant.

Please pray for Charlee's family and for Charlle that the Lord would intervene and make his presence known to Charlee and her family. May this ordeal drive everyone to their knees and put their faith in the living God for the healing that this young lady needs.

Thank you for your prayers.

Bro. Carl
Luke 19:10
