

KINDERGARTEN

SEPTEMBER NEWSLETTER

Little by little our days get busier with activities and new information for them to learn, be sure to ask about what they are learning to spark conversations and curiosity in them.

I strongly recommend reading with them every day this supports their language development, boosts early literacy skills, and strengthens their ability to focus and listen. It also fosters imagination, creativity, and emotional understanding through stories. Most importantly, reading together builds a strong bond between adult and child, creating positive associations with books and learning from an early age.

Look at what we are learning

Phonics

Letter and sounds

T, L, B, N, M, H

(upper and lower cases)

CVC words
