# Women Counseling Women

Do you ever wonder what makes people behave the way they do and what brings about genuine change? Would you like to learn how to solve problems using Biblical principles? Do you have an interest in helping others through mentoring, teaching, or counseling?

## WHO MAY COME?

The **Women Counseling Women** seminars are designed to teach pastors' wives, missionary wives, women in ministry, and those who simply want to learn more about how to apply Biblical principles to women's problems in practical ways and how to counsel effectively. The **Women Counseling Women** program is ideally suited to women who serve in leadership positions in their church, or who are engaged in counseling, teaching, or mentoring. Any lady who teaches or assists others in their Christian walk will find the material invaluable. It will not only transform the way one deals with others—it will transform the way one deals with change on a personal level.

## WHAT IS THE CLASS LIKE?

This seminar is the equivalent of a condensed, one semester college-level course. The power point lectures move very fast and include interactive study in small groups. Each student is provided with an extensive notebook that is used during the seminar.

**Specifics** seminars are designed to address specific problems that are prevalent in our churches today among women. These three-day seminars are only for women who have already attended the **Basics** seminar. The speaker will use the Scriptures to show how to find help with specific problems that are prevalent in our churches today among women.
