Dear Brethren,

Missionary Alex Araya of Costa Rica has an urgent need of repairing the roof on his house which is allowing the entrance of rainwater in his bedroom and kitchen. He says that each time it rains (they are in the middle of rainy season there), his bedroom is flooded, and half his kitchen. They are using all their Tupperware and pots and pans to try and catch the water. It seems the tin laminas on the roof are rotted out. This will cost around \$2000 to repair. He has also included among his urgent needs his 2003 Hyundai Galloper van that needs repair work done on the transmission, valuing \$1000. This is the vehicle with which he does all his camp ministry work.

I am including a video of one area where the water is leaking inside the house.

Thank you so much for your attention and for your prayers. GOD IS GOOD. HIS PROMISES ARE SURE. TIME IS SHORT. JESUS IS COMING.

Bro. Carl, GPA
Luke 19:10
