

## Pray for Pablo Araya and family

**Carl Hewlett**

Wed, Nov 12, 12:10 AM (8 days ago)

Dear Brethren,

I received this message tonight from Missionary Danny Araya in Costa Rica. Dani says the doctor called him and canceled Pablo's appointment for this Friday, saying that it wasn't necessary, and that at any time now they will call for both Pablo and Sofi (sister/donor) to be admitted starting the process with the bone marrow transplant. We need to be in much prayer for the entire family. Dani wants us to get the word out to as

many as possible to pray for Pablo and the family. 

Much preparation has gone into conditioning the house to receive Pablo after the transplant where he will be isolated for three months under close monitoring and watch care. Bro. Dani says the next four months will be very stressful for the entire family. A good deal of money has been required in all the preparations for Pablo's in-house treatment and care. Please keep the family in your prayers for a complete success and recovery in the entire transplant procedure, and that God's mercy and protection will be with Pablo from beginning to end. May our sovereign and gracious Lord have complete control and may his perfect will be done.

Thank you for praying.

Bro. Carl  
Luke 19:10
