YEAR ONE

Starts January 2026

The Bible reading guide for 2026 through 2027 will be a new arrangement. This 2-year Bible reading guide will have two tracks, which provides three different approaches for consistent Bible reading.

The first track will consist of five readings per week and will cover sixty-five Books of the Bible. The reading sequence of this first track will be in the order that the Books are found in our Bibles. This first track will average two to three chapters per day for each week's five-day calendar. The first track will average ten to fifteen chapters per week.

The second track will consist of three reading per week and will cover the Book of Psalms. This second track will average one to two chapters for each week's three-day calendar. The second track will average three to six chapters per week.

The first track will read through every Book of the Old and New Testaments (with the exception of Psalms) over the course of two years. The second track will read through the Psalms twice over the course of two years. You can chose to start only one of the tracks' or you can do both tracks. Whichever you choose to start, strive for consistency.
