.. The Night Cometh When No Man Can Work ...

Dear Pastor and praying friends,

November-December 2025

Every believer can rejoice to know, that everyone of us is on God's mind all the time. In a recent message, the Lord revealed to us, that HE should be on our minds all the time, talking about HIM and HIS Word. But that is where we must take stock of how often do we fulfil the content and promise of Prov 3:6 or Prov 16:3? And yet, what a promise that the Lord has given to us to know, that every thought will be ordained of God, whether it be going shopping or cleaning our homes, or even going to work, or taking a drive into a scenic area. Can we therefore say, that as God was present in our life, when we were in the womb, HE also desires to be in our very thoughts all the time.

It is now the season that we get more rain than normal, but we are pressing forward to get the tracts into the homes in our village and surrounding villages. At times it looks like rain and rain is forecasted, but we still go out, trusting the Lord to hold off the rain until we cover the desired area with tracts. And of course, we know that God is faithful to answer our requests, based on 1 Jn 5:14. Once we get back into the car and drive away, the rain will come...it is those times that we must be still and Praise the Lord, for his faithfulness, allowing us to reach out again, to those in our area.

We are now in the process of preparing for our new tract to go out, for next year. The deacons are involved in the decision, of what this new tract will contain. This is a purposeful action to train these men on how to write a new tract and to examine different tracts giving them ideas to write their own. We are also preparing for our Christmas Fellowship the week before Christmas, which is an important event, as we were not able to have our Annual BBQ back in July due to my inability to have it.

An update on myself: my energy level has increased to @ 90%, even though I still walk like a drunk man. My memory and focus is improving, but I still need to remind myself anytime I turn on the computer as to my password and pin. I am preaching more frequently and doing more when we put out tracts, for which we give praise to God. All in all my health is still in the hands of the Lord.

Please continue to pray for Helen, Alicia, Shaw, Dylan and especially Brian who is still attending services, but shuts out the message if hell is mentioned.

Thank you again for your faithfulness to the people in the Houston area.

Servants,
Dennis & May
