Dear Brethren,

I just received word from Missionary Daniel Araya in Costa Rica that his 13-year-old son Pablo, who has been waiting to hear from the doctors to give the go-ahead for his bone marrow transplant, will be admitted to the hospital on this coming Tuesday, March 12 to begin his transplant procedure. This has been so long in coming, and now we need to pray that God will direct every detail of the operation, and that the entire process will result in a successful outcome for Pablo's healing and for God's glory. This will involve one month in the hospital and approximately 3 months at the specially conditioned home in the area where the Arayas reside.

Remember to also pray for Pablo's 17-year-old sister Sofia who is the donor for the transplant. Pray for God's presence and peace to be with her as she lovingly and willingly volunteers to help her brother in this situation.

May God's mercy prevails over all that's done.

***Blessed are the merciful: for they shall obtain mercy.*** Mat. 5:7

Dear Brethren,

Correction

January 12, not March 12, sorry.
