FUN COMES FIRST!

The #1 reason kids play sports is to have fun.

(George Washington University, 2014)

Using modified games and drills, JNYB fosters an environment of fun and learning over competition and results.

DEVELOPING ATHLETES THE RIGHT WAY

The JNYB Curriculum is based on Sport Canada's Long-Term Athlete Development (LTAD) Model, a researched approach to optimal sport development.

JNYB is also aligned with the Canada Basketball Athlete Development Model, acting as the first step to success at all levels of basketball.

MORE PARTICIPATION – FOR EVERYONE

90% of youth athletes would rather play than win.

(Michigan State University, 2015)

Activities maximize participation and focus on FUNdamental skill development, sportsmanship, and a love for basketball – plus every child gets their own basketball!*

COACHING MATTERS

Young athletes are kids, not adults, and should be coached accordingly.

JNYB conducts Enhanced Canadian Criminal Record Checks on all JNYB coaches and requires completion of Safe Sport Training. JNYB helps train coaches across the country through the National Certification Coaching Program (NCCP), to ensure young athletes get the best coaching available.

SPORT BUILDS BETTER PEOPLE, NOT JUST ATHLETES

Youth sport can build character and life skills that can lead to greater personal and professional success.

(True Sport, 2015)

Team interaction, teachable moments, and life skills activities in the JNYB Curriculum take full advantage of the power of youth sport.

Our 1:10 Coach:Player ratio ensures quality in every drill taught for the entire session.

PARENTS ARE A KEY INGREDIENT

As role models and decision makers, parents are just another kind of coach.

The JNYB Parent Guide, provided to all parents, helps to educate and positively engage parents in their child's youth sport experiences.
