Dear Brethren,

We received notice today that Missionary Ana Chacon, wife of the late Missionary Evangelist with the GPA, Nisbel Chacon, lost consciousness, experienced convulsions, and then was admitted to the hospital in Tampa. Ana was diagnosed some time ago with colon cancer and has been undergoing chemo treatments. PLEASE KEEP HER IN YOUR PRAYERS. Ana has been a faithful and dedicated missionary since before our arrival on the field of Costa Rica in 1980. She is worthy of our help and prayers.

Also, her daughter Grettel, with whom Ana lives, has fallen and injured her shoulder. She works from her home and takes care of her autistic son, Leonardo. So Grettel covets our prayers, especially since she needs to be available for her son.

Please pray for both Ana and her daughter Grettel during these critical times.

Bro. Carl, GPA
