

# What to Expect

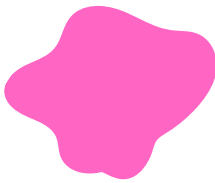

## **Arrival**

Set up will begin at 6:30. When you arrive, check in at the table at the main entrance. There you will turn in your paperwork. If you registered online, you'll turn in your notarized waiver. If you signed up in person, you'll turn in the waiver plus a hard copy of the registration.

## **Set Up**

Once you've checked in, we'll direct you to the set up area. Some spots may be reserved so that those with multiple booths are guaranteed to have all of their spaces together. For ease of loading/unloading, pull in to the entrance by the mailboxes. There is a path between the trees leading to the parsonage driveway. When you're done unloading, you are free to follow that path and pull out from the house driveway. From there, you can loop back around and park on the north side of the building.

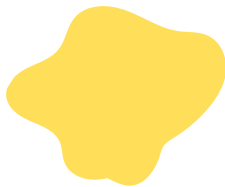

## **Taking Care of Business**

Restrooms are available in our fellowship hall. Though we will be running a sausage link sale concurrently, you are encouraged to keep these items on hand.

## **Transactions**

We want this sale to be a great financial success for you! Since we're all about you making as much money as possible, we encourage you to come prepared with ways for shoppers to pay you using all of your accepted payment methods. You may choose to print off the QR code for your cashless payment method and have it taped to the table or on a folder/clipboard for easy access.

## **Selling Electronics**

A testing table will be available for customers to verify that electronics are in working order. We will point it out during check-in.

## **After the Sale**

Hopefully you will have had a fun and profitable day! Pull around in the same way you did for set up. Once your booth is broken down any trash is removed, you're free to go home, fling your fists full of cash in the air, and do a happy dance. Or just take it to the bank. That's fine, too.
