

Nancy needs pray

Thu, Mar 19, 1:43 PM (3 days ago)

Carl Hewlett

Dear Brethren,

My wife Nancy had injured her arm on some rusty nails a couple of weeks ago and had to get a tetanus shot and start on antibiotics. Because of continued redness and inflammation, the doctor called for a Rocephin shot and more antibiotics. If the redness and inflammation aren't resolved, she may have to be hospitalized. Please keep her in your prayers.

Bro. Carl
Luke 19:10

PS - I am still in Costa Rica, and we have our last service with the Cabecar Indians here in Turrialba tomorrow. Our last meeting will be with the First Fundamental Baptist Church of Coronado on Sunday, before we head back to the States on Monday. We have had great meetings so far and look forward to our last three meetings coming up.
