MISSIONARIES TO AUSTRALIA

Reaching Brisbane and Beyond

Dear Partners and Praying Friends,

We kicked off 2026 during our summer holidays and enjoyed a wonderful Christmas with family from Sydney and a preacher mate's family from Brisbane. It still feels a bit odd celebrating Christmas in the heat! We even heard of snow down in Tasmania, while here in Brisbane, it's been the usual long, hot summer, along with a few wild storms and even a cyclone (Alfred), which you'd call a hurricane.

We're really enjoying our time at Good Shepherd Baptist Church. The children all started school in February—Rhys (Grade 9), Elin (Grade 7), Gwen (Grade 4), and Isla in Kindergarten. It's been a blessing to see them getting involved. Rhys is on the Connections team, Elin is helping in the café, and all of them have been singing in services. Isla is loving the nursery.

Mindy has begun co-teaching a ladies' Sunday school class, which has been a real encouragement to the women. I've also had the opportunity to teach a Bible institute class on teaching and public speaking, with five students serving in various ministries, including the Outback, youth, and children's work.

Last month, we saw five baptisms at church. We're also seeing consistent visitors each week, with some trusting Christ. Please pray for continued open hearts as we do outreach in our local area.

The Lord has also laid it on my heart to begin reaching the Redlands Bay area of Brisbane, which is about 45 minutes from our church, with around 20,000 people and no church of like faith. Rhys and I have started handing out tracts there. Please pray as we continue this work.

Our print shop has been busy as well, with over 20,000 tracts printed so far this year. Please pray for our efforts to reach the Pacific Islands and Southeast Asia with the Gospel. You can learn more at sbpdigital.au.

Thank you for your continued prayers and support. The Lord is growing our faith and opening doors, and we're grateful to partner with you in His work.

Your servant in Christ,

Garry Tingson
