Find a Rainbow Day (3rd)

Week of the Young Child (11th-17th)

Earth Day (22nd)

Arbor Day (24th)

Peek at the Week

Happy April!

It's hard to believe how quickly the school year is flying by. Spring is in full bloom, and our classroom is buzzing with energy and learning!

This month we will be diving into Spring with the arrival of our Butterfly kits! We'll be exploring the life cycle and stages of a butterfly: egg, caterpillar, chrysalis, and butterfly.

During our Spring Theme, students can play in our new "Garden" in the dramatic play area. In our Science Center, students will research the stages of the butterfly along with some other fun activities.

We will continue to work on writing our names, scissor skills, letter, shape & number recognition. I will incorporate more math skills such as patterning along with small, smaller, smallest/big, bigger, biggest.

As we head into the final stretch of the year, our hearts are full. We are starting to prepare for our Preschool Graduation ceremony! While we are sad to see this wonderful group leave our school, we know they are ready for their next big adventure.

I want to thank all of you for being so patient during my transition to your child's classroom.

If you have any questions or concerns, please feel free to contact me through Brightwheel.

Miss Niki

"May your heart forever chase the magic in every ordinary moment."
