WHAT IS A SPIRITUAL

# *Testimony?*

A spiritual testimony is a personal story or public declaration sharing an individual's faith journey, focusing on how a higher power, God, or specific spiritual principles have impacted their life. It typically highlights a transformation, detailing life before and after a spiritual awakening, salvation, or a significant divine encounter.

# *Testimony?*

The BEAST is trying to destroy the testimony of God. He wants humanity's face in the Metaverse. He wants his eyes everywhere and he wants humans to live in a glass box where he can control them. He wants to be their provider, comforter, healer, etc.

# CHEMTRAILS

SOME U.S. STATES, INCLUDING FLORIDA, HAVE INTRODUCED OR PASSED LEGISLATION AIMED AT BANNING "INTENTIONAL ATMOSPHERIC RELEASE" OF CHEMICALS FOR GEOENGINEERING, OFTEN CITED BY PROPONENTS AS A VICTORY AGAINST CHEMTRAILS.

# DATA CENTERS & AI

DATA CENTERS PRESENT SIGNIFICANT ENVIRONMENTAL, COMMUNITY, AND SECURITY RISKS, INCLUDING MASSIVE WATER CONSUMPTION (UP TO 5 MILLION GALLONS DAILY) FOR COOLING, HIGH ENERGY DEMAND, AND DANGEROUS NOISE/AIR POLLUTION (NOX) FROM DIESEL BACKUP GENERATORS.

# PHARMAKEIA

CRISPR - It is a precise, efficient technology adapted from bacterial immune systems that researchers use to edit, cut, or modify DNA in living organisms. CRISPR-Cas9 allows scientists to target specific stretches of genetic code and edit them, offering potential cures for genetic diseases, advancements in agriculture, and new diagnostics.

# FALSE PREACHERS

They are described as "wolves in sheep's clothing" who twist the Bible, prioritize prosperity, and flatter listeners to win following rather than souls. They corrupt the church. Push people to the beast; thus changes their image

# TATTOOS

Tattoos carry risks of infection, allergic reactions, and long-term skin issues like scarring or granulomas, largely stemming from contaminated or toxic inks containing heavy metals. Tattoos defame the image of God by destroying the natural temple and putting other “images” on it...much less the agreement they made in this blood covenant.

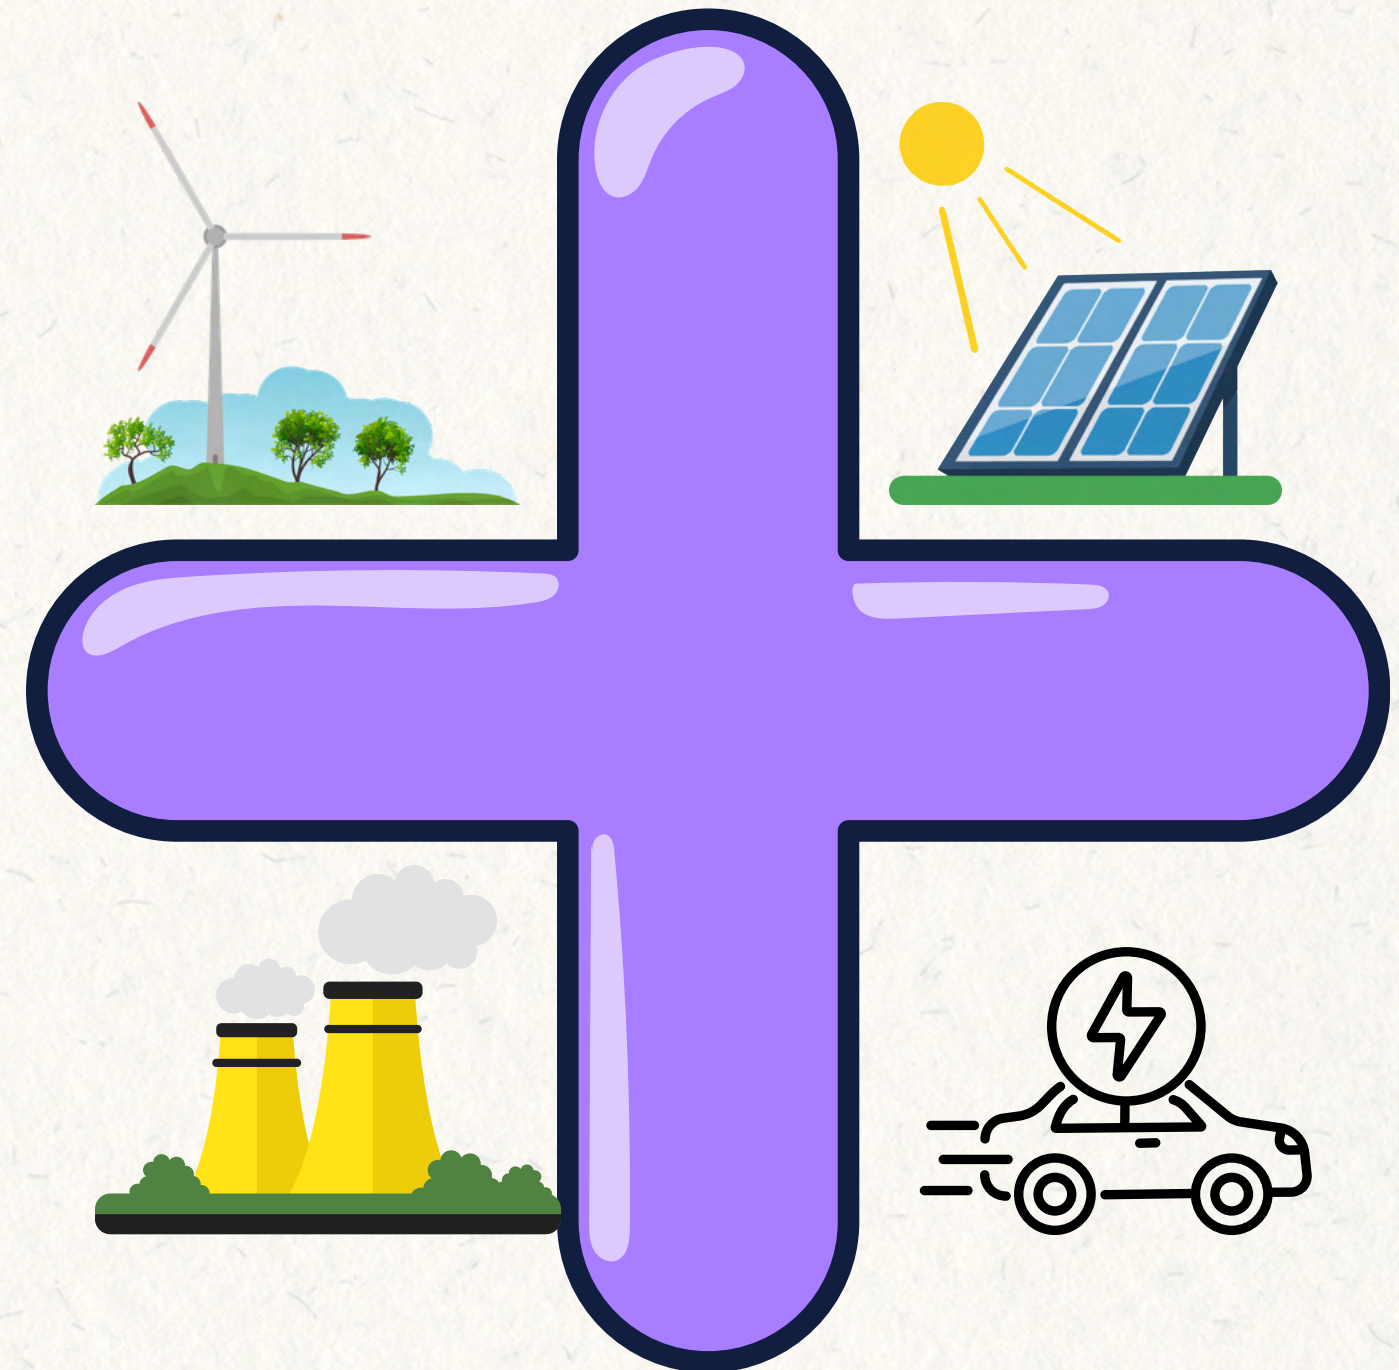

**NOTE - NAR REALLY PUSHES THIS!**

# ALT. ENERGY

Large-scale solar installations can require significant land clearing, which damages, fragments, and destroys local wildlife habitats and reduces biodiversity.

**Electric vehicles (EVs)** present specific dangers, primarily centered around lithium-ion battery fires that are difficult to extinguish, requiring massive amounts of water (thousands of gallons) and lasting hours. Other risks include extreme vehicle weight increasing accident fatality rates, high-voltage shock hazards, potential for toxic gas emissions during battery damage, and rapid acceleration leading to pedestrian hazards.

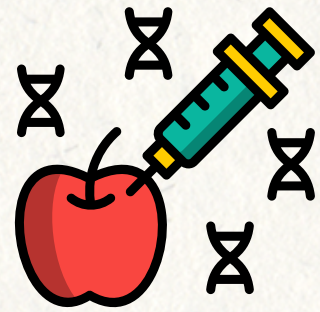

# HARP WEATHER

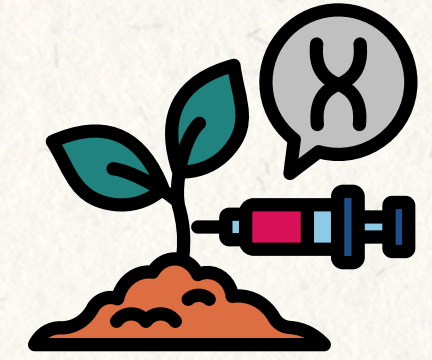

The High-frequency Active Auroral Research Program (HAARP) is the world's most capable high-power, high frequency (HF) transmitter for study of the ionosphere. The Beast DENIES that they can control the weather but we know otherwise. By these crazy storms they have wiped out entire cities to rebuild.

**EXAMPLE - GAZA!!!! #GAZA2028**

# FOOD SUPPLY

They have destroyed chickens, hogs, horses, cows, pigs, etc, by the millions over the past six years. They are replacing our food supply with genetically altered food (Crispr). Much less the GMO stuff!

# WATER

They are depleting our water supply by the extremely hot days, chemtrails, data centers and artificial intelligence and the infrastructure changes. Also include what they're doing with HAARP and depleting our cities.

AI data centers are significantly straining local water resources, with US facilities consuming an estimated 17 billion gallons annually, projected to surge to 68 billion by 2028.

# GOLDEN DOMES

By them installing domes or protective layers over countries, it will contain the heat even more. President Trump brags that we are the “hottest country on the planet.” It’s because of the heat the data centers and AI centers produce. The installation of nuclear plants releasing toxins in the air and much less
