Dear Brethren,

Missionary Alex Araya of Costa Rica urgently needs to install the roof for the camp gymnasium which is currently under construction. This must be done as soon as possible before the heavy rains begin to start the rainy season, which normally sets in during mid-to-late April. The need is \$5500. This is just for the labor involved, done by a select group for quality work. They have the materials already for the installation of the roof. It's just that at this moment there are no more funds to pay for the labor costs.

Please pray that the Lord will provide for this great need. GOD IS GOOD.
