

Dear Brethren,

Missionary Alex Melendez, with works in Costa Rica and Panama, recently sent me some photos and description of some important needs for the work in Panama. The following is a summary of this message. The photos are also attached. Please pray that the Lord would help Bro. Alex complete these projects. If you know or support Bro. Alex and his ministries, any sacrifice to help him will be greatly appreciated. Let me know, and if you need instructions on how to send help, I'm at your service. GOD IS GOD.

Bro. Carl, GPA

Luke 19:10

---

[4:34 PM, 4/10/2026] Alex Melendez: We are currently raising special funds for the improvements on the indigenous church building in Barranco Adentro.

[4:34 PM, 4/10/2026] Alex Melendez: And we need a submersible pump to draw water from the well at site 51, as we currently have no water there.

[4:34 PM, 4/10/2026] Alex Melendez: We have already built the well; now we need the pump, along with the necessary accessories and piping, to channel the water to the house and the church.

Here is what is needed to finish the work:

\$1000 finish work at Guaymi Indian church in Barranco Adentro

\$400 water pump, piping, well accessories for the work in Finca 51
