Dear Brethren,

This note is on behalf of our Bro. Bismark Martinez, missionary in Canalete de Upala, Costa Rica. The government permit for the electrical system in his church has expired, and they require that it be brought up to their standards so they can continue to function as a church in their current facility. The cost to replace the new electrical system is \$4000. They have been using the old system now for 20 years, and it is time for it to be replaced. There is no other option, or their building will be off limits for their use.

Please pray that God will be merciful and gracious to supply this need. If any of his supporters or friends could help us with this urgent request, please let me know. GOD IS GOOD.

Thanks for your prayers and consideration. Psalm 41:1-3
