CREATIVE ARTS

love **PERTH**  9-16 AUGUST 2026

We are looking to share a little of who we are through various creative ventures, ranging across disciplines of the visual and performing arts. Through these activities we hope to generate good discussions and dialogue with participants and those curious to explore why we are 'loving Perth'

We're aiming to connect with others through photography, art workshops, music sessions, and even dance performances.

If you have a particular interest in any of these areas, please make contact with one of our team. We'd be delighted to hear from you.
