Dear Friends and Churches,

Our God is always faithful, in everything and every circumstance. His Love, Mercy, and Grace are always abundant in the lives of His own. We have been busy since our last letter. We have built with God's help two more churches in Haiti in spite of the gangs and government there. Thanks to your help and prayers the North end of the island has two more faithful places of worship and CIMI has two more national pastors to help support. Praise God for the faithfulness of the people there who stand for God no matter the opposition. Things go back and forth with the gangs, but God's people flourish. Thank you again for your prayers and support for the Haitian ministry.

Here at home we also are blessed. Our church voted for and ordained one of my grandsons as the associate pastor of the church here. Justain has been working close with me in the different ministries here and if God should call me home everything will continue to operate. I would ask you to remember Justain and Julia his wife in your prayers as they labor for our Lord.

Our school year at the church has closed for the summer and the teachers are getting a much needed rest. I am amazed at their love and desire to work with the children so faithfully. I would ask you to remember Mary Ann and Charity also in prayer. They have a special gift to be able to teach and be the christian example to the children.

Also our pantry is trying to help provide food for anywhere from sixty to seventy families each week. I learned yesterday that one of our food suppliers will be shutting down the first of the year. I'm a little panicky right now but our God is faithful. The only grocery store in Immokalee closed so many are truly struggling to find food. Our church family has been giving to help with this need . Pray that God will keep the cruse and barrel full.

Louise and I are doing well and appreciate your prayers for us and your support to the Haitian ministry. Because of you the work not only keeps on but flourishes.

Your's in Christ  
Bob and Louise Kline
