

Follow up on Cheri Hayes

(19 hours ago)

Dear Brethren,

More information was given on Cheri Hayes' condition. She was supposed to have surgery today at 1 pm. The procedure was to last about thirty minutes, as the doctors would insert rods into her femur. She will be in the hospital for 3 to 7 days. For the next six months she will be in therapy. This is quite a burden for an active 76-year-old lady.

Please hold her up in prayer. Pat and Cheri are close friends of ours, and they still have friends at Providence Baptist Church of Riverview who remember them well when they were members there years ago.

Thanks for praying.

Bro. Carl
Luke 19:10
